Meta Trader 4 Guide - Android

MT4 can be downloaded by your computer or laptop from “Market”. You could login the faster “Market” downloader, go to search, and enter “Meta Trader 4”.

In MT4, there are four main taskbars for you to manage your account.

These four tasks are:

1. Quotes
2. Chart
3. Trades
4. History

In this guide, all features and options are explained, including how to use these features properly.

Logging in your existing accounts and opening new demo accounts

After installing the MT4 software, and run it for the first time. You will see the window below:

In your first window, you can login an existing real account or demo account, or apply for a new demo account. When you are logging in, please select the correct server. If you can't find our server, please click "Search" and enter "Active Trades".

Note: When you create a new demo account, make sure that you are entering numbers or characters in "Name" column, otherwise the registration will not be completed.

1. "Quotes" Tab

Every time when you login, after the first time logging in successfully, the platform will automatically login and take you to the Market Watch window. In the App settings, the market window refers to the "Quotes".

In the program column, View refers to "Quotes".

Pair	Current Price	High	Low
AUDCAD	1.02584	1.02949	1.02122
AUDCHF	0.94550	0.94950	0.94210
AUDJPY	83.983	85.167	83.651
AUDNZD	1.25691	1.26245	1.25610
AUDUSD	1.02989	1.03343	1.02699

As mentioned above, Quotes refers to the catalogue of currency pairs and trading product in the Market window. You can use the program to switch the tool window from "Easy" to "Advanced".

”Easy” window only displays trading products’ names and buying/selling prices. “Advanced” window, as shown above, displays time and the highest/lowest prices of buying and selling. Similarly, you can also delete or add the trading products you are interested in.

a. How to add more trading products

To add more trading product, tap on the menu button on your system, and select “Symbol”.

Symbol	Buy Price	Sell Price
AUDCAD	1.03635	1.03680
AUDJPY	87.866	87.901
CADCHF	0.91877	0.91922
CADJPY	84.764	84.799
EURAUD	1.26569	1.26614
EURCAD	1.31198	1.31243

The bottom navigation bar includes: New Order, Symbols (highlighted with a red arrow), Accounts, Settings, and About.

In the next window, you will see the following groups of trading products. To add more trading products, click on the “+” in the following table first.

When you click on the “+”, you can see a range of products:

- a. Metals
- b. CDF Forward
- c. Majors
- d. Minors
- e. Exotics

Tap on the corresponding packet, you will see all of the trading products contained in this packet. Select the one you want and click the green “+”, then the trading product will be added to the quotes window.

b. How to remove your unwanted tools

You can delete the unwanted CFDs or currency pairs from quotes catalogue. Select the currency pair or CFD product that you want to remove, and confirm the selection. Tap on “Delete” and click on “back” after you finish. See the following table for easy comparison.

c. Placing an order

To place an order, tap on the corresponding CFD trading product or currency pair, and the transaction catalogue will appear.

Click on “New Order”, you will see the page for placing a trade.

Australian Dollar vs Japanese Yen

Sell Buy

Here you can select the amount and the type of your order, and you can also switch your trading product. The last step, you can set the SL&TP, and you can click on Buy or Sell to confirm your order.

d. Viewing Chart

To view chart, according to the first part explained before, just click on “chart” button and the platform will automatically take you to the “chart” option.

2. “Chart” Tab: How to open or edit a chart

Based on the different ways you holding your device (horizontally or vertically), the chart displayed will be different. According to MT4 settings, you can change the chart setting by yourself.

Click on the “Clock” chart to add more technical indicators, you have 7 different timeframes to select (M1, M5, M15, M30, H1, H4, D1). Using MT4 PC version, the longer timeframe you choose, the more history information you can see in the chart. Choose the right appropriate timeframe according to your own trading strategy.

In addition, you can change chart type from “Chart” option, from bar chart, candlestick, and line chart. For other options, please click on the “Settings” option from main menu.

In the settings window, under the input line, you can select the chart you want to use. (See the picture as a reference)

To use MT4 platform, zoom in and out function is effective. Only need to move your finger closer to narrow it and far away to enlarge it.

Note: MT4 platform can open only one chart at the same time. If you want to switch CFD trading product or currency pair table, you only need to go back to “Quotes” and select the one you want. After clicking on it, the new execute box will appear in the chart. Your chart settings will not disappear during the process.

3. Trade Tab

Transaction tab can be seen as a window, same as MT4 PC version.

In the “Trade” window, you can view your balance, profitability, margin rates and margin balance, as well as lodging and other settings summary.

Quotes	Charts	Trade	History
Profit:		374.61	
Balance:		447 537.34	
Equity:		447 911.95	
Margin Level (%):		90927.48	
Margin:		492.60	
Free margin:		447 419.35	
Positions			
CADCHF, sell 0.10		89.27	
0.93050 → 0.92230			
EURCHF, sell 0.20		187.69	
1.20996 → 1.20134			
EURGBP, sell 0.10		104.44	
0.83099 → 0.82441			
Orders			

4. Closing Order

To close order or edit stop loss and take profit, you can click on the Trade. In the list of transactions, the transaction information tab will appear, which contains all of the relevant information and each trading product position. In this information tab, hold your finger against it for about one second till the executive button pops up. Again, you can modify or close your order here.

Quotes	Charts	Trade	History
Profit:			-65.77
Balance:			5 000.00
Equity:			4 934.23

balance		2012.04.18 15:46	
			5 000.00

6. How to add a second account

To add a second online or demo account, tap on the “Accounts” button on your smart phone and you will see your account information. Click on “Accounts” and select “+”, which is in the top right corner of the screen. Thereafter, the chart below shows the final state. You can also switch the account to MT4 PC version.
